```

Details

This function launches a Graphical User Interface for the limma package by Gordon Smyth. The GUI uses Tk widgets (via the R TclTk interface by Peter Dalgaard) in order to provide a simple interface to the limma functions for linear modelling of microarrays and identification of differentially expressed genes.

James Wettenhall

ALGchangeLog

affylmGUI Change Log

Description

Write as text the most recent changes from the affylmGUI package changelog.

Usage

`ALGchangeLog(n=20)`

Arguments

n	integer, number of lines to write of changelog.
---	---

Value

No value is produced, but a number of lines of text are written to standard output.

Author(s)

Gordon Smyth
