

Package ‘spatialDmelxsim’

October 28, 2025

Title Spatial allelic expression counts for fly cross embryo

Version 1.15.0

Description Spatial allelic expression counts from Combs & Fraser (2018), compiled into a SummarizedExperiment object. This package contains data of allelic expression counts of spatial slices of a fly embryo, a *Drosophila melanogaster* x *Drosophila simulans* cross. See the CITATION file for the data source, and the associated script for how the object was constructed from publicly available data.

spatialDmelxsim	<i>Spatial allelic expression counts for fly cross embryo</i>
-----------------	---

Description

Allelic expression counts of spatial slices of a fly embryo from Combs & Fraser (2018), a D melanogaster x D simulans reciprocal cross
