Example data for breakpointR

1 Data description

This package provides data for demonstration purposes in package `breakpointR`. It contains five example BAM files to illustrate functionalities of `breakpointR` package, as well as corresponding results stored in 'BreakPoint' objects in order to demonstrate plotting options. The following example data are present inside the package `breakpointRdata`:

```
library(breakpointRdata)
?example_bams
?example_results
```

Example data can be loaded in the following way:

```
## Example BAM files
path <- system.file("extdata", "example_bams", package="breakpointRdata")
files <- list.files(path, full.names=TRUE, pattern=".bam$")
```

```
files

## [1] "/extdata/example_bams/example_lib1.bam" "/extdata/example_bams/example_lib2.bam"
## [3] "/extdata/example_bams/example_lib3.bam" "/extdata/example_bams/example_lib4.bam"
```

```
## Example results
path <- system.file("extdata", "example_results", package="breakpointRdata")
files <- list.files(path, full.names=TRUE)
```

```
files

## [1] "/extdata/example_results/example_lib1.RData"
## [2] "/extdata/example_results/example_lib2.RData"
## [3] "/extdata/example_results/example_lib3.RData"
## [4] "/extdata/example_results/example_lib4.RData"
```

2 Session Info

```
toLatex(sessionInfo())
```

- R version 4.6.0 RC (2026-04-17 r89917), x86_64-pc-linux-gnu
